

Because
small pieces complete
the big picture

Introducing Maersk LCL solutions

Every piece counts

Imagine 'The Mona Lisa' without the iconic smile or 'The Girl with the Pearl Earring' without the earring. It's small details like these that often make all the difference. Such is the story of LCL (Less than Container Load) cargo too.

Since it's not large enough to fill a standard container, organising its dispatch is often cumbersome. You are forced to juggle between different providers and stacks of paperwork, neither of which is convenient.

Not anymore.

Introducing Maersk LCL solutions

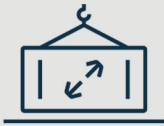

Even though LCL is a small part of your average cargo volume, it's not a small part of your business, and should be handled accordingly.

With Maersk LCL Solutions, booking your LCL becomes convenient. Now you can either book LCL as a standalone or FCL + LCL, without any hassle.

Experience the Maersk LCL advantage

Convenience

- You can either book LCL as a standalone or combine FCL + LCL with Maersk
- There's no duplication of documentation
- Coordination of LCL and FCL becomes comfortable with a single point of contact

Reliability

- The entire journey is supported by Maersk-owned equipment, global network and integrated logistics services
- Cargo gets space protection and loading priority
- All accepted LCL bookings get assured loading

Flexibility

- Multiple routing solutions allow dispatch at short notice and emergency rerouting
- You can combine LCL with other Maersk offerings too

Cost efficiency

- Instant price at booking with a uniform and straightforward price structure
- No hidden costs

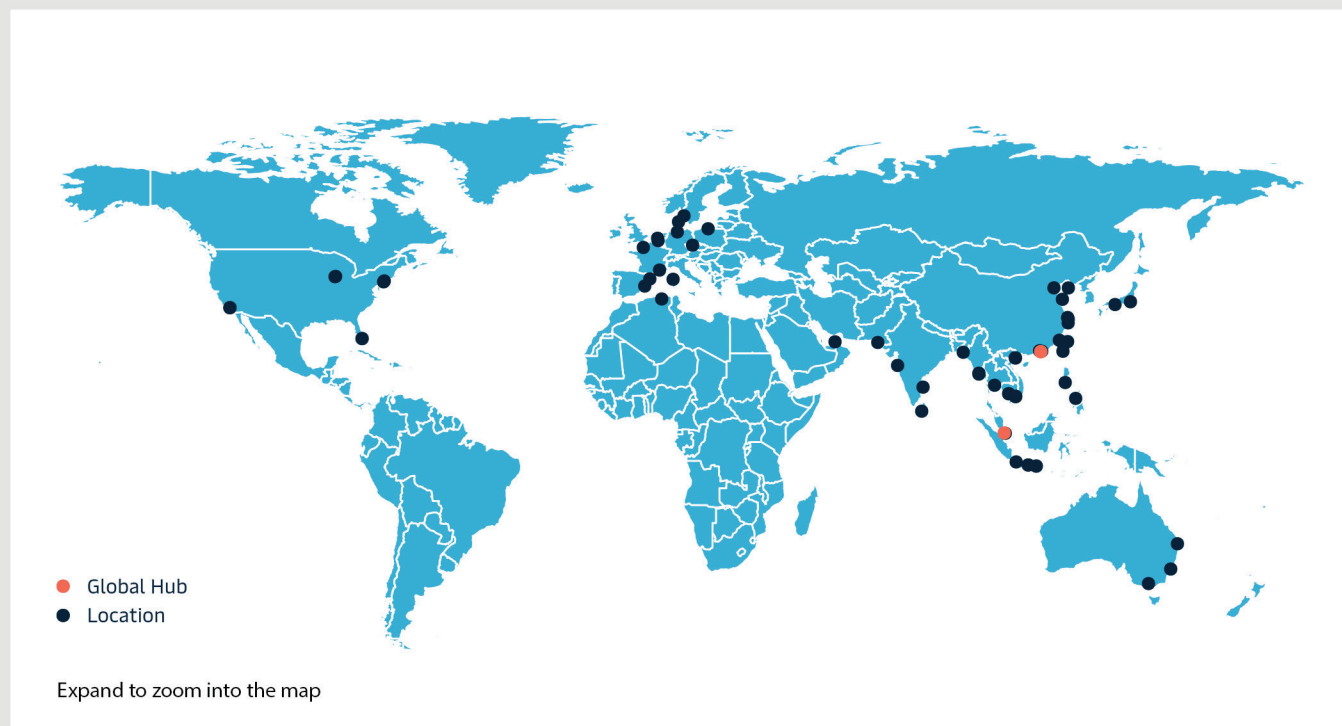

Visibility

- You can track your LCL cargo from origin to destination
- Get a clear view of the exception-handling scenarios

LCL consolidation = Absolute peace of mind

We handle 800+ direct sailings weekly between major trade and inland points across the globe, which means that you can choose from several consolidation services for your LCL cargo.

Origin Consolidation

If you want to consolidate multiple LCL shipments into a full container, you can choose origin consolidation. It's fast and reliable.

Multi-Country Consolidation

MCC consolidates LCL cargo from multiple countries and delivers to the intended destination. It helps in reducing handling time and transit costs.

Hub Program

Transshipment via Maersk hubs comprises deconsolidation and reconsolidation of the cargo. It makes the less common destinations more accessible and easier to manage.
