

How to Submit HS Code in Shipping Instructions

Dear Valued Customer,

There has been an increasing focus on the accurate commodity classification under which many Customs authorities are marking Harmonised Commodity Code mandatory in the Customs Manifest declaration. Maersk will be implementing a policy to collect these 6 digit Harmonized System (HS) Codes as published by World Customs Organisation (WCO) as part of the shipping Instructions for all global cargo movements. This is to ensure Maersk and it's Customers are compliant on providing accurate commodity information right first time to Customs authorities.

Step-by-step guide

How to Submit HS Code in Shipping Instructions on Maersk.com

When you are submitting your Shipping Instructions online via Maersk.com, please input the 6-digit HS Code in the dedicated field provided field in the Cargo Description section. In case of multiple HS codes all the codes need to be listed out in the cargo description field
